PROJECT: SPECIFICATIONS

CLT AIRPORT TERMINAL EXPANSION

TIMELINE:

START: 03/2022 - COMPLETE: 07/2024

MATERIALS:

Backpainted Glass & FRP Light Coves

BUDGET:

$1.1 Million

PROJECT NOTES:

SEAS contributed to the Charlotte Douglas International Airport terminal expansion with **custom exterior and interior metal systems**. Our scope included precision cladding and panel installations across high-traffic entryways and interior features, **designed for both durability and aesthetic impact.** The finished work enhances the passenger experience and reinforces the airport's role as a modern gateway to the city.

SHAPING THE SPOTLIGHT

TIMELINE:

START: 05/2021 - COMPLETE: 11/2023

MATERIALS:

Custom Aluminum Trellis

BUDGET:

$1.1 Million

PROJECT NOTES:

For the Sandy Springs Performing Arts Center, SEAS delivered **precision-crafted metalwork** that defines the building's exterior. Our team fabricated and installed custom cladding elements that **marry durability with elegance**, enhancing the architectural vision while ensuring long-term performance. The **result is a striking façade that reflects both artistry and engineering expertise**.

GATEWAY TO UPTOWN

TIMELINE:

START: 03/2022 - COMPLETE: 06/2022

MATERIALS:

Aluminum Plate Wall Panels and Laser Cut Aluminum Panels

BUDGET:

$4.2 Million

PROJECT NOTES:

SEAS partnered on the Charlotte Convention Center expansion, delivering custom exterior metalwork that **seamlessly connects the building to its urban surroundings**. Our scope included precision-fabricated perforated panels and architectural cladding on the elevated walkway and outdoor pavilion, **designed to balance visual interest with structural integrity**. The result is a bold exterior statement that enhances pedestrian flow and **reflects Charlotte's modern skyline.**

SCREENED IN STYLE

TIMELINE:

START: 04/2015 - COMPLETE: 06/2015

MATERIALS:

Perforated Aluminum Cladding and Extruded Aluminum Parking Deck Screening

BUDGET:

$1Million

PROJECT NOTES:

SEAS provided **precision-fabricated metal screening and cladding** for the Tower 2 parking deck at North Hills. The design **balances practicality with architectural appeal**—ensuring ventilation requirements are met while presenting a polished, cohesive exterior that **blends seamlessly into the high-profile mixed-use environment.**

TIMELINE:

START: 09/2015 - COMPLETE: 12/2015

MATERIALS:

Perforated Aluminum Cladding and Extruded Aluminum Parking Deck Screening

BUDGET:

$1.82 Million

PROJECT NOTES:

SEAS completed extensive exterior screening and cladding for the Tower 4 parking deck at North Hills. The **custom metal system balances airflow and durability** while presenting a polished façade that complements the adjacent office tower and mixed-use district.

CAMPUS HUB, MODERNIZED

TIMELINE:

START: 07/2017 - COMPLETED: 11/2017

MATERIALS:

Aluminum Trellis

BUDGET:

$1 Million

PROJECT NOTES:

At Clemson University's Douthit Hills, SEAS delivered the metal panel detailing that helps **define this vibrant student hub**. The system **balances sleek, modern lines** with durability, complementing the expansive glass façade and brickwork. Our scope contributed to a welcoming, **high-performance space at the heart of campus life**.
